

HEALTHCARE FACILITIES

Cape Coral Hospital Emergency Room Expansion & Addition Cape Coral, Florida

TKW provided structural engineering and threshold inspection services for the expansion and renovation of the Emergency Department at Cape Coral Hospital.

The project consists of 6,000 sf of new construction and approximately 15,000 sf of renovation and was completed in phases. Included with the building addition is a new entrance canopy featuring cantilevered framing providing a column-free drop-off.

Lee Health Village at Coconut Point Estero, FL

Lee Health Village Coconut Point is located on a 33-acre site situated on the south side of Coconut Road in Estero. The 145,000-sf anchor building featuring an Emergency Department, an outpatient surgery center, rehab, clinics and Lee Health's home for holistic health and care coordination services, the Healthy Life Center. walkable health and wellness destination, which will offer a broad array of medical services across the continuum of care.

TKW is providing structural engineering design services for the Central Energy Plant and assisting structural engineers at Flad Architects with the design of the hospital facility.

Golisano Children's Hospital of Southwest Florida Fort Myers, Florida

TKW Consulting Engineers provided structural engineering and design of the Golisano Children's Hospital on the HealthPark campus. The building is an eight-story, 292,000 sf structure for 160 pediatric beds.

This \$250 million project opened in 2016.
